Nationwide		LFP	2017	2022	-	4,545,826.40	4,545,826.40	4,545,826.40	4,545,826.40	4,545,826.40	22,729,132.00
11	DTI-0001	Rural Agro-Industrial Partnership for Inclusive Development and Growth (RAPID Growth)	DTI		Chapter 9	The RAPID Growth project is an enterprise development initiative that intends to propel micro and small businesses in high-growth sectors to become innovative, productive and competitive to meet the challenges of the global market. The project will provide a package of sector-focused, firm-level, value chain-based and climate smart assistance and financing program to agriculture-based processing enterprises and entrepreneurial communities, supported by enabling sectoral and trade policies designed to provide enhanced access to institutional, regional and world markets.	Nationwide		ODA-IFAD	2017	2022	345,774,000.00	345,774,000.00	345,774,000.00	345,774,000.00	345,774,000.00	345,774,000.00	2,074,644,000.00
12	DTI-0008	Shared Service Facilities (SSF) Project	DTI		Chapter 9	MSME Development is a key strategy to achieve Government's goal of inclusive growth and jobs generation. A major component of the MSME Development Program and considered to be a "Big Push" is the Shared Service Facilities (SSF) Project which aims to improve the competitiveness of MSMEs by providing them with machinery, equipment, tools, systems, accessories and other auxiliary items, skills and knowledge under a shared system. Purpose: -Enable MSMEs to increase their productivity; -Accelerate MSMEs competitiveness by giving them access to energy efficient technologies and more sophisticated equipment; -Encourage the graduation of MSMEs to the next level where they could tap a better and wider market share and be integrated in the global supply chain; -Guaranteed product quality of MSMEs-beneficiary of Established SSFs -Increased competitiveness of MSMEs-beneficiary of Established SSFs	Nationwide		LFP	2013	2019	70,000,000.00	865,700,000.00	122,200,000.00	-	-	-	1,057,900,000.00
13	DTI-0011	Trade and Inclusive Economic Growth Facility	DTI		Chapter 9	The broad goal of the project is to help the Philippines achieve sustained and inclusive growth. Five complementary areas of engagement underpin the facility and contribute to this goal, as follows: 1.Connecting the Philippines with the global economy: aid for trade - help the Philippines successfully negotiate trade agreements and increase exports/imports by Philippine businesses through better National Quality Infrastructure 2.Improving competitiveness through domestic regulatory reform - help the Philippines implement key domestic reforms that will improve the competitiveness of the Philippine economy and reduce business cost 3.Better jobs and increasing inclusiveness - provide targeted support aimed at improving incomes of those below/at the poverty line, and other vulnerable groups 4.Responding to emerging economic issues - technical assistance and policy development support on emerging and priority economic issues identified through dialogue with the Philippine Government 5.Strengthening economic institutions - help targeted economic agencies improve their service delivery capabilities by addressing their human	Nationwide		ODA-Australia	2018	2024	390,170,000.00	390,170,000.00	390,170,000.00	390,170,000.00	35,470,000.00	390,170,000.00	1,986,320,000.00

26	PHLPOST-0001	Centralization of customs examination, assessment, appraisal and clearance for postal items	PHLPOST		Chapter 9	Includes the Development of Customs Systems and Procurement of x-ray machines. The Development of Customs Systems involves the development and installation of an ICT application for the centralized customs examination, appraisal and/or assessment at International Mail Processing Centers; notification and collection of the customs duties, taxes and other charges to addressee/receipient/sender; management and reporting of postal items examined as well as collection of customs duties, taxes and other charges; and other customs actions relative to the centralized customs examination, appraisal and/or assessment - includes the procurement of hardware infrastructure requirement, e.g. servers, computer workstations. The procurement of x-ray machines involves the installation of x-ray machines at International Mail Processing Centers.	Nationwide		LFP	2014	2019	15,300,000.00	-	10,800,000.00	-	-	-	-	26,100,000.00
27	MIRDC-0024	Strengthening the Capability of a Gear Making and Assembly Facility	DOST	MIRDC	Chapter 9	General Objective: To strengthen local capabilities for gear design & production, develop gear manufacturing industry for transport, metalworking and agro-industrial applications, produce gear making and assembly experts and supplement the gear industries' deficiency of skilled manpower. Specific Objectives: 1. To strengthen the existing gear facility through acquisition of additional machines for further development of different types of gears for agro-industrial and transportation application; 2. To enhance the design, develop and produce specialized gears and gearboxes/system for industrial applications; 3. To continuously provide consultancy 10 local firms and facility sharing services on the production of gears and transmission system; 4. To strengthen and sustain the competency of MIRDC gear making and assembly experts; and 6. To produce an expanded pool of trained gear personnel to address the existing deficiency in the number of skilled manpower in the gear industry.	Region-Specific	NCR	TBD	2019	2021	-	-	115,000,000.00	79,000,000.00	6,000,000.00	-	-	200,000,000.00
28	PHLPOST-0006	Modernization of Business Processes	PHLPOST		Chapter 9	Includes the Development of National Addressing System and Procurement of Sorting Machines with Master data Manager. The Development of National Addressing System involves development, acquisition and implementation of an ICT-based addressing system that gather, consolidate and maintain the addresses within the Philippines.	Nationwide		LFP	2012	2019	-	30,000,000.00	240,000,000.00	-	-	-	-	270,000,000.00
