(As of December 2020)**

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
Asian Development Bank (ADB)					
1 Integrated Natural Resources and Environmental Management	This grant is part of the L2957-PHI which aims to institutionalize effective watershed management in four river basins: (i) Chico River Basin in CAR, (ii) Wahig-Inabanga in Bohol, (iii) Lake Lanao Basin in ARMM, and (iv) Upper Bukidnon River Basin.	DENR	Agriculture, Agrarian Reform and Natural Resources	2.50	Ongoing
2 Secondary Education Support Program	The TA will support in the preparation and implementation of the Senior High School Support Program of the government.	DepEd	Social Reform and Community Development	3.28	Ongoing
3 Implementing Senior High School Support Program	The TA will support implementation of the Senior High School Support Program of the government.	DepEd	Social Reform and Community Development	1.50	Ongoing
4 Support to Local Government Accountability Systems	The project will support improvement of systems for local government accountability and financial management reporting.	DILG	Governance and Institutions Development	1.00	Ongoing
5 Strengthening Tax and Fiscal Policy Capacity for Inclusive Growth	The TA supports the Department of Finance to develop sound tax and fiscal policy through policy-oriented analysis and communication of fiscal and economic policy priorities with stakeholders.	DOF	Governance and Institutions Development	3.80	Ongoing
6 COVID-19 Emergency Response	The TA proposed activities - largely emergency medical supplies and other initial support required for dealing with the crisis - to be financed by the requested Asia Pacific Disaster Response Fund (APDRF) align with WHO's Strategic Preparedness and Response Plan for COVID-195 which the Philippine government has also adopted, and the Philippines' National Contingency Plan for COVID-19.	DOH	Social Reform and Community Development	3.00	Closed
7 Support for the Nationwide Rollout of JobStart Philippines	The project will support the government's efforts to establish the nationwide institutional setup for the JSP rollout and ensure 100,000 at-risk youth access JSP services under the rollout between 2015 and 2020.	DOLE	Social Reform and Community Development	8.80	Ongoing
8 Railway Project Implementation Support and Institutional Strengthening	The project will support the construction of the 51-kilometer (km) section of a new railway line connecting Metro Manila and the regional center in Clark and the Clark International Airport, located in the Central Luzon Region, around 100 km north of Manila.	DOTR	Infrastructure Development	3.40	Ongoing
9 Strengthening the Transition of Vulnerable Communities Affected by the Malolos-Clark Railway	The TA will support the North-South Commuter Railway project through assistance to project affected persons to navigate the resettlement process and effectively access services and benefits under the Resettlement Action Plan and its integrated Livelihood Restoration and Improvement Program	DOTR	Infrastructure Development	2.00	Ongoing
10 Strengthening Infrastructure Capacity and Innovation for Inclusive Growth	The TA will directly support the Government and the proposed Project by: (i) screening and prioritizing projects for inclusion in the proposed Project; (ii) enhancing the current management and monitoring system and structures, (iii) identifying key specialist support to augment capacity in DOF, NEDA, DPWH, and DOTr, and (iv) supporting in the implementation of a project management and monitoring system as part of the Build Build Build program	DPWH	Governance and Institutions Development	5.00	Ongoing
11 Restoring Livelihoods and Learning in Marawi	This is part of the overall assistance to Marawi. Under this output, it will improve social services and livelihoods of affected people.	DPWH	Infrastructure Development	3.00	Ongoing
12 Integrated Flood Risk Management Sector Project	The TA will support the proposed loan on Integrated Flood Risk Management Sector Project which will assist the government to reduce flood risks in six river basins (Apayao-Abulog and Abra in Luzon, Jalaur in Visayas, and Agus, Buayan-Malungon, and Tagum-Libuganon in Mindanao) by (i) improving flood risk management (FRM) planning through strengthening data acquisition and data management, and improving flood protection asset management; (ii) rehabilitating and constructing flood protection infrastructure; and (iii) raising community awareness, and preparing and implementing disaster (flood) risk reduction and management plans to reduce different groups' vulnerabilities	DPWH	Agriculture, Agrarian Reform and Natural Resources	1.30	Ongoing
13 Emergency Assistance and Early Recovery for Poor Municipalities Affected by Typhoon Yolanda	The grant aims to alleviate the adverse social and economic impacts of Typhoon Yolanda on the poor in selected municipalities in the Eastern Visayas.	DSWD	Agriculture, Agrarian Reform and Natural Resources	20.00	Ongoing

**List of Active ODA Grants-assisted Projects
(As of December 2020)**

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
14 Strengthening Social Protection Reforms	The project supports the Government of the Philippines in implementing and expanding its social protection agenda, especially the conditional cash transfer (CCT) program Pantawid Pamilyang Pilipino Program (Pantawid) and the Listahanan national household targeting system for poverty reduction (NHTS-PR). The associated TA will support capacity development and institutional strengthening of the government for efficient implementation of the social protection agenda.	DSWD	Social Reform and Community Development	6.00	Ongoing
15 Water District Development Sector	This grant is to provide additional resources for L3389-PHI, to enable water districts to expand and rehabilitate supply systems and build pilot sanitation facilities in order to reduce water-related diseases due to unsafe drinking water and the lack of sanitation facilities.	LWUA	Infrastructure Development	2.00	Ongoing
16 Water District Development Sector Project	The Project will enable water districts (WDs), corporatized water utilities operating outside Metro Manila, to expand and rehabilitate supply systems and to build pilot sanitation facilities, in order to reduce water-related diseases due to unsafe drinking water and the lack of sanitation facilities. It will also provide capacity development technical assistance to strengthen the sustainability of WDs and promote partnerships between local government units (LGUs) and WDs in septage management.	LWUA	Agriculture, Agrarian Reform and Natural Resources	1.00	Ongoing
17 Emergency Assistance for the Reconstruction and Recovery of Marawi	This is part of the overall assistance to Marawi. Under this output, it will support restoring water utilities and health infrastructure.	Multi-Agency	Infrastructure Development	5.00	Ongoing
18 Implementing a Rapid Emergency Supplies Provision Assistance to Design a Sustainable Solution for COVID-19 Impact Areas in the NCR through Public Private Collaboration	The proposed Rapid Emergency Supplies Provision (RESP) technical assistance (TA) will support the Government of the Philippines (GOP) in addressing the urgent and still-unfolding crisis resulting from the spread of the COVID-19 pandemic in the National Capital Region.	Multi-Agency	Social Reform and Community Development	5.10	Ongoing
19 Strengthening Public-Private Partnerships in the Philippines	The technical assistance is to help the Government of the Philippines (i) improve PPP enabling framework, (ii) strengthen institutional set-up and capacity in PPPs, (iii) help establish infrastructure investment and risk guarantee mechanisms to facilitate private sector interest, and (iv) help structure bankable PPP projects through sustainable project development financing.	PPP Center	Governance and Institutions Development	31.20	Ongoing
20 Financial Inclusion Framework Strengthening	The TA aims to identify through consultations and survey, sector-wide binding constraints to formulate effective assistance and support government efforts to expand financial inclusion by strengthening the policy and regulatory framework to promote financial services for the unserved and underserved population.	SEC	Governance and Institutions Development	0.95	Ongoing
21 Institutionalizing Capital Market Reforms	The TA supports the full and continuing completion of reforms under subprogram 2 of the Encouraging Investment through Capital Market Reforms program and thus shares the same impact and outcome. The TA will have two outputs that will ensure that capital market development efforts are comprehensive and coordinated across the government, and that initiatives critical to the success of development efforts are completed in a timely manner.	SEC	Governance and Institutions Development	0.50	Ongoing
SUB-TOTAL				110.33	
Australia					
22 Education Pathways to Peace in Mindanao (Pathways)	Pathways is a nine-year Philippines-Australia partnership to improve the quality, relevance and reach of early years education in the Bangsamoro. It aims to help all children in the region access basic education, to improve the quality of education policy and management and to boost the effectiveness of teaching to improve learning outcomes. Pathways works in partnership with government and non-state actors, schools, teachers and parents to deliver these objectives and support peacebuilding in the region.	DepEd	Social Reform and Community Development	67.55	Ongoing
23 Philippines: Disaster and Climate Risks Management	The Philippines Disaster and Climate Risks Management initiative supported the strengthening of Philippines' capacity for disaster risk reduction through institutional strengthening and capacity building for GPH technical agencies on early warning and forecasting, hazard and risk analysis, and climate science and adaptation options to better inform disaster and climate risk management in vulnerable areas; providing technical and policy support in integrating disaster and climate principles in GPH planning and decision-making; and strengthening the capacity of communities to prepare for and respond to disasters.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	31.26	Closed

**List of Active ODA Grants-assisted Projects

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
24 Philippine-Australia Scholarships & Alumni Program	The Australia Awards and Alumni Engagement Program Philippines (AAAEP-P) is a four-year program of the Australian Department of Foreign Affairs and Trade that aims to support the Philippines in its effort to progress its development goals and have positive relationships with Australia that advance mutual interests. It builds on existing Australian investments in the Philippines and the gains of the Philippines-Australia Human Resource and Organisational Development Facility (PAHRODF) to deepen engagement in priority areas, broaden results, strengthen alumni links and contribute to Australia's integrated approach to development, especially economic and public diplomacy objectives.	DP-Implemented	Governance and Institutions Development	10.17	Ongoing
25 Australian Development Awards -2012 Intake	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2012 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	9.97	Ongoing
26 AusAID's Australia Awards - 2013 Intake	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2013 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	9.00	Ongoing
27 Australia Awards Scholarships - 2017 intake	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2017 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	7.11	Ongoing
28 AusAID's Australia Awards - 2014 Intake	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2014 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	6.60	Ongoing
29 Australia Awards Scholarships - Intake 2015	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2015 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	6.27	Ongoing
30 Facility - Social Protection DSWD Technical Assistance Facility Amendment 1	Australia's social protection support to the Philippines helps the Department of Social Welfare and Development (DSWD) increase access and utilisation of social services by key vulnerable groups especially indigenous people, homeless street families, and the disabled through improved implementation of programs including the Modified Conditional Cash Transfer Program (MCCT). This investment also aims to help DSWD Technical Assistance Facility (TAF) access local technical assistance and build the Department's capacity in efficiently managing and monitoring proposals and harmonising donor assistance to ensure quality, complementary and responsive technical assistance.	DP-Implemented	Social Reform and Community Development	3.30	Ongoing
31 Australia Awards Scholarships - Intake 2016	Funding under this initiative supports the Australian Development Awards long-term scholarships and short-term fellowships and scholarships 2016 intake of awardees from across 36 developing countries.	DP-Implemented	Governance and Institutions Development	3.76	Ongoing
32 Enhancing livelihoods through Forest and Landscape Restoration	This project builds on previous ACIAR work on watershed management and rehabilitation. The project will investigate how to best scale out the successful community-based Forest and Landscaper Restoration (FLR) model in other watershed areas in the Philippines. This includes the design of FLR systems tailored to the communities and identify key technical issues related to the selection and establishment of appropriate timber tree species and agricultural crops as part of FLR systems.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	1.75	Ongoing
33 Action ready climate knowledge to improve disaster risk management for smallholder farmers in the Philippines	The project aims to improve the value of information flows between PAGASA and key decision makers involved in managing the climate and weather risks of smallholder farmers. The strategy uses applied socio-economics to understand the decision-making context, establish the potential value of information, observe the barriers to use of information and find ways to improve communication and use of information.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	1.35	Closed
34 Development of area-wide management approaches for fruit flies in mango for Indonesia, Philippines, Australia and the Asia-Pacific Region	The specific aim of this project is to: Reduce fruit fly infestation and improve yield and quality through AWM and improved pre and post-harvest practices which will result in improved mango production and trade.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	0.50	Ongoing
35 Developing vegetable value chains to meet evolving market expectations in the Philippines	The project aims to improve the capacity of selected vegetable supply chains in the Philippines to deliver vegetables that better meet consumer expectations in terms of quality, food safety, nutritional value and price.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	2.26	Ongoing

Germany					
54 Support to the Climate Change Commission (Support CCC) II	<p>The project builds on the experiences and results of an earlier project, 'Support to the Climate Change Commission in implementing the National Climate Change Action Plan', which was also implemented by GIZ and Commission until August 2015 with funding by the German Federal Environment Ministry (BMUB). This contributed to the strengthening of institutions to implement the National Climate Change Action Plan. It promoted the use of renewable energy through policy mechanisms, such as the feed-in tariffs and net metering, and supported capacity building for climate-resilient planning at the sub-national level.</p> <p>The current project supports the Climate Change Commission and other agencies, such as the Department of Energy and the Housing and Land Use Regulatory Board, in coordinating and implementing the national climate change policy, in the context of the Philippines' international commitments. This includes support for the Philippines' presidency of the Climate Vulnerable Forum in cooperation with the United Nations Development Programme. At the sub-national level, the project works with local government units in developing climate-adaptive land use and development plans, and in accessing climate financing facilities, such as the People's Survival Fund.</p> <p>The project also supports the Department of Energy in establishing an effective regulatory framework to promote the use of renewable energy. The project partners are endeavouring to improve the state of energy planning so as to better accommodate the increasing amount of energy from variable renewable sources, such as solar and wind, in the Philippine power system.</p>	CCC	Governance and Institutions Development	9.35	Ongoing
55 Improving Smallholder Coffee Farming Systems in Southeast Asia	The Project "Improving Smallholder Coffee Farming Systems in Southeast Asia" popularly called Project Coffee+ is a public-private partnership undertaking between GIZ and Nestlé and is into engaging with government and other relevant institutions supporting the further development of the coffee value chain. The objective is to increase the yield of 1500 coffee farmers by 50% (or even up to 1 metric tons per hectare) over the three years period (2018-2020), thereby increasing their incomes and improving the economic viability of their farming systems. The focus area of the project are the coffee farmers in Bukidnon and Sultan Kudarat. Further, the project aims to transform the coffee farmers to "Agripreneurs" using the Farmer Business School approach (FBS) tool developed by GIZ and partners, and for sustained engagement with government and other stakeholders.	DA	Agriculture, Agrarian Reform and Natural Resources	1.60	New

90	Sustainable Pro-Poor Water Supply Project in Cebu	MCWD	Infrastructure Development	8.47	Ongoing
<p>Metro Cebu is the second largest urban centre in the Philippines with a population of more than 2.6 million people and a land area of 1,163 km². Metro Cebu Water District (MCWD) currently provides service coverage to only 43% of the 1.9 million people in the Cebu area. Most of the population without supplied water are urban poor who cannot afford the expensive up-front connection fee.</p> <p>The project goals are to extend the water network, improve network resilience and provide access to clean water for an additional 80,000 people in Metro Cebu. The goals are to be sustainable by making the new connections affordable. This will increase MCWD's customer base and generate more revenue for investment in the water infrastructure.</p>					
91	Manila Bay Sustainable Development Master Plan	NEDA	Infrastructure Development	-	Ongoing
<p>NEDA had requested the Netherlands government to assist in the formulation of the master plan. A Memorandum of Understanding (MoU) between the Philippines and the Netherlands government was signed in Jan 2018.</p> <p>There is a local and a foreign component of the project. The local component is funded by NEDA while the foreign component is composed of the Dutch Expert Team.</p>					
92	Capacity building for small water districts in business planning and non-revenue water	PAWD	Infrastructure Development	0.03	Ongoing
<p>The assistance aims to provide small water districts with useful tools in the preparation of business plans and applicable non-revenue water reduction and management strategies.</p>

94 Restoring Agricultural Livelihoods in Maguindanao and North Cotabato	Implemented through UN FAO, this Activity will target households who are food insecure, many of which are returning home after being displaced by conflict. It will supporting the re-establishment of agricultural livelihoods and re-integrating previously displaced families will reduce vulnerability and poverty.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	2.58	Ongoing
95 Capacity Development of the New BARMM Cadre and Reintegration/Transformation of Female Ex-Combatants into Gender-related Social Service Work for Sustained Peace in BARMM	This project is envisioned to change the lives of Bangsamoro Islamic Women's Auxiliary Brigade (BIWAB) female ex-combatants by capacitating them to meaningfully participate in areas of good governance and in peace-building amid COVID-19, other natural disasters and armed conflict. To achieve this vision, the project proposes to address the (1) underlying socio-cultural beliefs, behaviors and social norms that perpetuate women's subordination and risk to GBV, (2) structural capacity and enabling environment issues that prevent catalytic change from scaling up and gaining traction, and (3) governance issues that hamper full assurance of GBV prevention and response services.	DP-Implemented	Social Reform and Community Development	0.26	New
96 COVID-19 Response for Vulnerable and Displaced Communities in Mindanao	The project aims to Prepare, Prevent and Protect communities in vulnerable situations in Mindanao from the risk of Coronavirus Disease (COVID-19) by 1) constructing and maintaining key Water, Sanitation and Hygiene (WASH) and COVID-19 preparedness facilities, 2) providing critical equipment for safer cold chain management, 3) promoting hygiene and awareness-raising in displacement sites, and 4) providing cash and in-kind assistance to address the most urgent WASH and shelter needs. The approach for this 9-month project is to provide immediate response through multi-sectoral three-pronged strategy, "Prepare, Prevent, Protect" to the affected communities, whose fragility and susceptibility would be further exacerbated by the current situation. This holistic approach encompasses the humanitarian-development-peace nexus and envisages conflict sensitive interventions to address the strains resulting from the COVID-19 pandemic.	DP-Implemented	Social Reform and Community Development	1.25	Ongoing
97 Philippines Typhoon Goni Response	New Zealand's assistance will support the immediate needs of affected communities. The amount will contribute to some of IFRC's areas of focus: shelter, livelihoods and basic needs, health, water, sanitation and hygiene promotion, disaster risk reduction, community engagement and accountability, as well as protection, gender and inclusion. 130 Support for Developing and Implementing Management Strategies in response to Fall Armyworm (FAW) incursion in Asian countries	To strengthen capacity and capability of the technical officers, extension officers and farmers in managing FAW.	DA	Agriculture, Agrarian Reform and Natural Resources	0.05	Ongoing
131 Support member countries implement climate change adaptation measures in fisheries and aquaculture.	Improved country capacity to develop and implement climate change adaptation plans and actions that promote socio-economic development with specific attention to poverty reduction and food security in the fishery and aquaculture sector	DA	Agriculture, Agrarian Reform and Natural Resources	0.12	New
132 Creating an enabling environment for securing sustainable small-scale fisheries	This project is nested within the FAO Umbrella Programme for the Promotion and Application of the SSF Guidelines (PGM/MUL/2015-2018/SSF) - Enhancing the contribution of small-scale fisheries to food security and sustainable livelihoods (FAO SSF Umbrella Programme), which is implemented by FAO in collaboration with partners and is intended to host projects by multiple donors supporting the same overall goal and outcomes. This project complements and supports activities already being implemented under the programme. Therefore, the projects expected impact is the same as for the programme: Improved governance of small-scale fisheries contributes to the eradication of hunger and poverty, to sustainable development and to the sustainable use of the environment. The project will contribute to food and nutrition security and poverty eradication through the application of the principles and provisions of the SSF Guidelines in the context of the SDGs. Accordingly, the project will play a part in achieving the objectives of the SSF Guidelines themselves: ? to enhance the contribution of small-scale fisheries to global food security and nutrition and to support the progressive realization of the right to adequate food, ? to contribute to the equitable development of small-scale fishing communities and poverty eradication and to improve the socio-economic situation of fishers and fish workers within the context of sustainable fisheries management, ? to achieve the sustainable utilization, prudent and responsible management and conservation of fisheries resources consistent with the Code of Conduct for Responsible Fisheries (the Code) and related instruments, ? to promote the contribution of small-scale fisheries to an economically, socially and environmentally sustainable future for the planet and its people, ? to provide guidance that could be considered by States and stakeholders for the development and implementation of ecosystem friendly and participatory policies, strategies and legal frameworks for the enhancement of responsible and sustainable small-scale fisheries, and ? to enhance public awareness and promote the advancement of knowledge on the culture, role, contribution and potential of small-scale fisheries, considering ancestral and traditional knowledge, and their related constraints and opportunities. 143 HFC Enabling Activities for the Philippines	<p>PROJECT OBJECTIVE: To proceed with the ratification of the Kigali Amendment and make recommendations for policy and regulatory actions that would enable Philippines to be in compliance with the initial HFC phase-down obligations under the Amendment.</p> <p>PROJECT IMPACT: 1. Strengthened existing policy and regulatory framework to effectively control and monitor import, export, and use of HFCs 2. Capacity built for DENR-EMB, POD, BOC and other stakeholders in regards to licensing and quota system, custom codes and tracking of import/export of HFC (blends) 3. Alternative technologies for the Philippines context determined 4. Draft strategy for phase-down scenarios to be in compliance with future Kigali Amendment commitments</p>	DENR	Industry, Trade, and Tourism	0.23	Ongoing
144 Implementation of PCB Management Programs for Electric Cooperatives and Safe E- Wastes Management	As a Party to the SC on POPs, the Philippines is obliged to comply with the targets designed to reduce or eliminate releases from intentional and unintentional production of POPs. The Government of the Philippines, through the Department of Environment and Natural Resources (DENR), developed a National Implementation Plan (NIP) in 2006, which outlined programs and actions to achieve its obligations. The NIP has recently been updated (2014) to address the changes in the obligations to the SC, review the action plans previously developed and the achievements so far, and formulate new action plans that would address the additional obligations. In the updated NIP, two of the priority action plans identified were the need for the development and implementation of incentives for rural electric cooperatives to comply with the phase out of PCBs and management of PBDEs from WEEE stream in the country. The project is fully consistent with the priorities reflected in the NIP as it includes two components specifically addressed at measurably reducing POPs from electrical equipment (PCBs) and E-waste (POP PBDEs), provision of decision making tools and economic approaches on these issues and a component aimed at raising the awareness of operators, authorities and of the general public on POPs issue. The project grant will support segregation of PBDE-contaminated plastic from the general e-waste stream, and its disposal. The project will also assess possible technologies that may be adopted to address	DENR	Industry, Trade, and Tourism	6.20	Ongoing

165 UNIDO Country Programming Framework for Inclusive and Sustainable Industrial Development (2018-2023)	The UNIDO Country Programming Framework (CP) is designed to enhance UNIDO's support to the Government of the Republic of the Philippines to implement a roadmap towards Inclusive and Sustainable Industrial Development (ISID) as stated in the Lima Declaration adopted on 02 December 2013 during the 15th session of General Conference of UNIDO. In doing this, UNIDO has aligned the priorities for the Philippines to the Philippine Development Plan 2017 - 2022, building on the achievements of past projects and programmes. As industrialization is a long-term endeavor involving many stakeholders, efforts will be made to strengthen synergies and minimize duplication by collaborating with development cooperation partners, state and non-state actors, including the private sector in the country. As a framework based on established national priorities, it will be a useful guide for UNIDO's interventions in the Philippines over the next years.	DP-Implemented	Industry, Trade, and Tourism	0.07	Ongoing
166 Philippines country strategic plan (2018–2023)	The Philippine country strategic plan (2018–2023) is designed to reduce malnutrition and build the resilience of vulnerable populations. WFP will work with the Government to improve response structures and policy frameworks through the following strategic outcomes: > Strategic outcome 1: Crisis-affected people in the Philippines are able to meet their food and nutrition needs during and immediately after an emergency. > Strategic outcome 2: Women, boys and girls in provinces prioritized by the Government have adequate and healthy diets to reduce malnutrition by 2022 in line with government targets. > Strategic outcome 3: Vulnerable communities in Mindanao have improved food security and nutrition by 2022 in line with government targets. > Strategic outcome 4: National and local government agencies have enhanced capabilities to reduce vulnerability to shocks by 2022.	DP-Implemented	Governance and Institutions Development	24.70	Ongoing
167 Enhancing Results-based Monitoring and Evaluation Through Innovative ICT Solutions: Linking Upland Farmers to Market and Improving Municipal Waters Governance	Demonstrate replicable ICT models for (i) project services, and (ii) participatory, quantitative and qualitative assessment of market transactions, natural resources and project interventions and outcomes.	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	0.50	Ongoing

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
172 COVID-19 Response for Vulnerable Displaced Communities in Mindanao	In response to the situation, IOM proposes a three-pronged strategy: "Prepare, Prevent, Protect", which incorporates a Do No Harm approach and is centred on conflict sensitivity. Targeting the provinces of Davao del Sur, North Cotabato, Maguindanao, Lanao del Sur and Zamboanga, Basilan, Sulu and Tawi-Tawi (ZamBaSulTa), the project will implement the following activities: 1) Prepare: IOM will ensure at-risk communities, including IDPs and returnees, are better prepared to COVID-19 through improved access to WASH by constructing and maintaining key WASH and COVID-19 preparedness facilities; 2) Prevent: IOM will support the Philippines' government efforts for COVID-19 infection prevention and control by providing critical equipment for safer cold chain management and promoting hygiene and awareness-raising in displacement sites; 3) Protect: IOM will ensure the most urgent WASH and shelter needs of persons in vulnerable situations, including IDPs and returnees, are met adequately through cash and in-kind assistance. Through this approach, the project aims to contribute to the long-term goal that regional and community preparedness and resilience of Mindanao is improved for potential future pandemics, as the socio-economic and physical impact of COVID-19 on at-risk communities in Mindanao is mitigated.	DP-Implemented	Governance and Institutions Development	1.25	Ongoing
173 Capacity Building Support to the Department of Social Welfare and Development (DSWD) Towards the Protection of Mobile and Fragile Populations in the Philippines	The project aims to enhance the capacity of Government and partners in CCCM and emergency shelter responses including building the technical capacity on IOM's Displacement Tracking Matrix (DTM).	DP-Implemented	Governance and Institutions Development	2.25	Ongoing
174 Prepare, Prevent, Protect Mitigating the Humanitarian Consequences of the COVID-19 Pandemic In The Philippines	To help mitigate the humanitarian consequences of the COVID-19 pandemic on these at-risk mobile and host communities, IOM will implement activities under its "Prepare, Prevent, Protect" strategy, which is in line with the Global Humanitarian Response Plan for COVID-19. The approach will address specific gaps in community handwashing and protective practices, and support the most vulnerable segments of these groups.	DP-Implemented	Governance and Institutions Development	2.00	Ongoing
175 Philippines: Technical Assistance on Normalization and Migration Management to Bangsamoro Transition Authority (BTA)	The project is on capacity building around major migration management areas, particularly the drafting of framework on normalization and reintegration, and labour migration governance and assisted voluntary return.	DP-Implemented	Governance and Institutions Development	0.20	Ongoing
176 Philippines: Direct Hiring of Overseas Filipino Workers - Policy Research and Development of Risk Assessment and Due Diligence Guidelines	The project is on guidelines on Direct Hiring of OFWs	DP-Implemented	Governance and Institutions Development	0.20	Ongoing
177 Aligning Lenses Toward Ethical Recruitment (ALTER)	The Aligning Lenses Towards Ethical Recruitment (ALTER) project aims to produce and operationalize an ethical recruitment model that supports the interaction between employers, private recruitment agencies (PRAs), migrant workers, civil society organizations (CSOs) and the Government of the Philippines. The model includes a holistic approach that allows for greater transparency over modern slavery risks, including human trafficking, in all phases of recruitment and employment processes. This shall be done through extensive engagement and training of labour recruitment stakeholders (government, private sector, migrant worker CSOs), the IRIS Labour Recruiter Capacity Building Program (IRIS LR CBP), IRIS Self-assessment for Ethical Recruitment (IRIS SAFER) and by utilizing IOM's Ethical Recruitment Due Diligence Toolkit. The intended purpose is to build and provide safer employment alternatives and industries for at risk Filipino domestic workers, especially women, that is fully enabled to promote transparency and the upholding of labour and human rights.	DP-Implemented	Social Reform and Community Development	1.20	Ongoing

178 Bridging Recruitment to Reintegration in Migration Governance: Philippines (BRIDGE)	BRIDGE seeks to support the GoP in achieving Objectives 8 and 21 through the lens of the GCM Thematic Area 4: Facilitating regular migration, decent work and enhancing the positive development effects of human mobility. This will be accomplished by ensuring a) Government initiatives to promote fair and ethical recruitment as well as reintegration services are evidence-based, gender-responsive and coordinated through a people-centered, whole-of-government and whole-of-society approach and b) the Government establishes mechanisms to translate evidence into policy and best practices pertaining to recruitment and reintegration through the migration cycle. Both results seek to ensure human mobility in the Philippines is fully utilized and facilitated in a regular, safe and orderly manner that contributes towards sustainable development effects for migrants, their families and even communities. BRIDGE supports the Philippine Development Plan 2017-2022, Ambisyon Natin 2040 (long-term vision and strategies), the Philippines-UN Partnership Framework for Sustainable Development (PFSD) 2019-2023, and the ongoing programmes of IOM, ILO and UN Women in the areas of recruitment and reintegration in the Philippines context.	DP-Implemented	Social Reform and Community Development	1.50	Ongoing
179 Project for the Capacity Building of the Bangsamoro Transition Authority for Strengthening Health Care Services in Remote Islands	The objective of the project is to support the development of the electricity sector of the BARMM through renewable energy solutions for the provision of essential services in rural communities. specifically focusing on health facilities.	DP-Implemented	Governance and Institutions Development	2.19	Ongoing
180 Prepare, Prevent, Protect: Mitigating the Destabilizing Socio-Economic Impact of Covid-19 on Most Vulnerable and Conflict-Prone Communities in Mindanao	The Coronavirus Disease (COVID-19) crisis comes at a tumultuous time for Mindanao. It's most conflict-affected and poverty-afflicted region, the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM) is in the midst of a delicate normalization process. Since the outbreak COVID-19, there has been a general rise in tension and violence across Mindanao creating additional constraints on the region's peace and security efforts. With pre-existing societal fragmentation, isolated communities' vulnerability to drivers of instability and stretched government support, this unprecedented crisis poses a serious challenge to achieving sustainable and effective peace. The global pandemic crisis has also amplified pre-existing vulnerabilities of internally displaced people (IDPs) across the island. North Cotabato and Davao del Sur were hit by a series of powerful earthquakes at the end of 2019 which have left over 200,000 people displaced. With the Philippines anticipating cycles of high transmission rates and the differential implementation of community quarantine across the country until the pandemic subsides, marginalized social groups and IDPs are likely to be disproportionately impacted by restrictive interventions. In response to these challenges, IOM Philippines will adopt its "Prepare, Prevent, Protect" approach to mitigate the destabilizing socio-economic impact of COVID-19 on most vulnerable and conflict-prone communities in Mindanao.	DP-Implemented	Governance and Institutions Development	1.30	Ongoing

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
181 Climate Change Adaptation and Community Resilience in the Philippines (CARP)	The primary objective of this project is to support the Philippines to mitigate adverse impacts of climate-related events through enhancing policy and community-level interventions integrating safe and orderly migration as a tool of resilience for at-risk communities. This will be achieved through two Outcomes. The first deals with increasing the awareness and technical capacity of local government bodies, decision-makers, civil society, media and vulnerable communities to adapt to climate change and consider migration management as an opportunity to build community resilience. This will be based on a research policy paper on Climate Change and Migration in partnership with the Climate Change Commission and key experts in the field. The policy paper will be the basis for the second outcome, which revolves around creating core messages on Climate Change and Migration advocacy and awareness at the national and local levels. The project will aid local government and community organizations to produce evidence-based climate adaptive programmes that consider migration in their planning, through the implementation of training and proposal writing workshops using updated and localized modules. Through this two-pronged approach, combining awareness promotion and evidence-based policy advocacy, the project will facilitate the development and adoption of effective climate change response programmes that integrate safe and orderly migration as adaptive measures by policymakers	DP-Implemented	Agriculture, Agrarian Reform and Natural Resources	0.30	Ongoing
182 Promoting conflict prevention, social cohesion and community resilience in BARMM in the time of COVID-19	The project will utilize a hybrid implementation strategy that will harness the relationships between the implementing agencies and the Bangsamoro authorities for institutional shifts, while utilizing the networks and community-knowledge of CSOs and local NGOs for interventions aimed at conflict-affected communities. This community-based approach, which will be supported by partners with strong community track records, will engage women and youth from conflict scenarios in the BARMM and ensure that the intervention is timely and relevant. The project will center all activities around women and youth participation and inclusion, in order to effectively drive conflict prevention, mediation and resolution at all levels of governance.	DP-Implemented	Governance and Institutions Development	1.60	Ongoing
183 Prevention of Violent Extremism in BaSulTa	Prevention of Violent Extremism in BaSulTa communities	DP-Implemented	Governance and Institutions Development	1.18	Ongoing
184 Improving Migrant and Community Preparation and Awareness to Counter Trafficking (IMPACT)	The project aims to produce a scalable and replicable model that empowers the most at risk communities and their members in BARMM to identify and prevent Trafficking in Persons (TiP) and unethical recruitment practices leading to forms of modern slavery. Through tested, targeted and culturally appropriate interventions and campaigns, the BARMM government, communities and migrants, especially women prone to migrate for domestic work, will be empowered to identify key indicators of TiP and unethical recruitment practices and understand their human rights throughout the migration journey	DP-Implemented	Social Reform and Community Development	1.80	Ongoing
185 Humanitarian Assistance on Shelter and Camp Coordination and Camp Management (CCCM) for Typhoon Affected People in Region 5	This Action will provide assistance to the most vulnerable affected people in Region 5, with a specific focus on Albay and Catanduanes provinces based on the extent of damage, number of affected people, and identified gaps in the relief response. The key objective is to ensure that the most vulnerable segments of the affected population have access to emergency shelter solutions, and safer and more dignified living conditions in evacuation centres (ECs). 190 Early Childhood Education	EARLY CHILDHOOD EDUCATION	ECCD	Social Reform and Community Development	0.38	Ongoing
191 Improvement of livelihoods of Indigenous Women through the Provision of Small Processing Tools, in the Municipality of Hungduan, Ifugao	aims to create and sustain additional income-sources for the rice farmers in Hungduan, Ifugao, through provision of basic tools for processing heirloom rice and other agrobiodiversity crops, provision of capacity enhancement trainings on entrepreneurship, and establishment of diversified clustered enterprises which provides additional sources of income to the Indigenous Women.	LGU-implemented	Agriculture, Agrarian Reform and Natural Resources	0.01	New
192 Improvement of Artisanal Fisheries Project (IAFP)	To provide inputs to increase catch of fresh water fish that will provide ample supply of nutritious food and additional income to poor families affected by the COVID-19, thereby contributing to food and nutrition security of the poor households.	LGU-implemented	Agriculture, Agrarian Reform and Natural Resources	0.01	New
193 Improvement of agri-based livelihoods through Urban agriculture & food systems program in Quezon Cit	The project aims to model an alternative urban agriculture system for ASF affected backyard hog raisers of Quezon City and to assist in the livelihood recovery of the by transforming their previous source of income to sustainable aquaponic and aquaculture set-ups. Aside from being a source of income it also aims to be a source of food to aid in overall food security. Their agricultural outputs of the project will serve as produce that may be marketed and a primary source of nutrition.	LGU-implemented	Agriculture, Agrarian Reform and Natural Resources	0.01	New
194 Renewable Energy Technology to Increase Value Added of Seaweeds in Tawi- Tawi.	UNIDO and MINDA agreed to cooperate in pursuit of sustainable development objectives of Mindanao. In particular, energization of seaweed farming communities in Tawi-Tawi was proposed under the EU-Access to Sustainable Energy Program (EU-ASEP) entitled Renewable Energy Technology to Increase Value-Added of Seaweeds in Tawi-Tawi (RETS).The grant agreement was awarded in December 2018. Tawi-Tawi is identified as a top producer of seaweeds in the BARMM and in the country, yet despite the contribution of this internationally-traded commodity to the national and global economy, Tawi-Tawi remains among the poorest and least electrified provinces in the country. The RETS Project aims to increase and extend the availability of electricity service and design water supply system in the island municipalities that are home to about 15,000 seaweed farmers. These work components would facilitate the implementation of the LGU's and MAFAR's plans and programs to increase the value-added of the seaweeds industry in the local and regional economies. Focus shall be on enhancing the quality of raw seaweeds and the application of renewable energy technologies in post-harvest facilities and processing. The action moves a step further by including the rehabilitation of facilities with increased availability of electricity service in order to improve the delivery of basic community social and welfare services in the seaweed farming communities. 201 Local Government Strengthening	LOCAL GOVERNMENT STRENGTHENING	Multi-Agency	Social Reform and Community Development	0.95	Ongoing
202 Support to improving public and private sector investments for climate and nature-based solutions in priority agro-industrial value chains towards the integrated achievement of the SDGs in the Philippines (Preparatory Assistance Phase)	<p>The joint programme (JP) aims to accelerate SDG progress in the Philippines by unlocking public/private investments for the food agro-industrial value chain. SDGs 2 and 9 are most lagging (SDSN,2017) and the country's 2019 SDG VNR highlighted financing gaps for CCAM/DRR initiatives. The value-chain approach is taken to show the importance of sectoral climate approaches, catering to system-specific transformation challenges. Priority is given to vulnerable areas and communities/sectors severely-affected by recent emergencies/shocks, (e.g. COVID-19 and bird flu/African swine fever), with reduced capability to access financing. Addressing challenges on investment/financing in the climate-vulnerable food agro-industrial sector offers an opportunity to tackle interlinking SDG concerns. Limited fiscal space, weak institutional capacity, misaligned incentives/regulations, and inefficiencies constitute the bottlenecks to timely access of public funds. Leveraging private investments is difficult due to lack of common understanding about sustainable development, and mismatch between the needs/wants of private enterprises and the requirements for positive cooperative action. Use of corporate social responsibility (CSR) funds is fragmented, creating low-impact initiatives. The JP will demonstrate financial innovations for implementing climate/nature-based solutions, scaling-up public/private investments. It will address government-identified considerations for SDG-financing: contributes to reducing inequalities including affordability of basic services by the poor; engenders strong commitment of stakeholders; contributes to resilience to natural and human-induced hazards.</p> <p>The Philippines relies on agriculture/fisheries sectors for food security, nutrition, and economic growth, with the food manufacturing sector in close forward linkage. The proposal aims to showcase how financing mechanisms can facilitate the adoption/implementation of technical solutions in addressing value-chain challenges, demonstrating sustainable and climate-resilient practices from production/processing to market entry. It will capitalize on global-best standards, technologies/innovations not yet operationalized. It will employ assessment tools for gender-responsive planing/programming and recommend gender-responsive policy frameworks, promoting the climate/nature-based solutions and financial innovations. It will advance green/climate financing, assisted by fintech and through partnerships with the Green Finance Task Force (GFTF), DFIs/IFIs, and the public/private sector, unlocking investments. Strategies will be promoted around policy incentives, de-risking investments, guarantees, impact investing, blended financing, SDG-tagging, sustainability-reporting, standards for climate/green projects, and rationalizing CSR funds, assisting MSMEs and farmer/fisherfolk groups. The JP will assist local governments and MSMEs to develop climate-investment programmes, improving credit-worthiness. Capacity will be built for continuing collaboration among partners, gender inclusion/mainstreaming, replication/scale-up, and sustainability of results.</p> <p>While some of the technical-assistance initiatives are at piloting stage (smart agriculture standards), the main innovative financing initiatives (credit surety/guarantee and first-loss risk-cover) are minimum viable products.</p>	Multi-Agency	Industry, Trade, and Tourism	0.02	Ongoing
203 2020-21 Biennium Programme Budget	PB 2020-21 supports the Five (5) Strategic Priorities for WHO collaboration with the Philippines, 2017-2022 (Save Lives, Promote Well-being, Protect Health, Optimize the Health System, and Use Platforms for Health)	Multi-Agency	Social Reform and Community Development	13.72	Ongoing

209 E-PESO	E-PESO supports the development of economic infrastructure that will enable Filipinos to access new financial products and services, further contributing to inclusive economic development. E-PESO assisted the Philippine Government, through the Bangko Sentral ng Pilipinas, in building a more competitive payments environment by opening it up to more players, domestic and foreign investors alike. Through E-PESO assistance, the Philippine government launched the National Retail Payment System in 2015, a policy and regulatory framework to establish a safe, efficient, reliable and affordable retail payment system in the country. The government also established automated clearing houses that will enable more efficient movement of money from one account to another, and beneficiaries are credited with the funds within the same day and are not charged reception fees. E-PESO also assisted the Bureau of Internal Revenue to develop additional options for the payment of taxes, including debit, credit, prepaid card and mobile payments.	BSP	Governance and Institutions Development	20.90	Ongoing
210 PPAP (Philippines Performance Audit Partnership)	Performance audits are effective tools for assessing the achievement of intended development results of public investments. PPAP partnered with the U.S. Government Accountability Office (GAO), a world leader in performance audit, to bolster the capability of the Philippines Commission on Audit (COA) to evaluate large-value government programs with high public interest. The GAO, through its Center for Audit Excellence, advises COA leadership in implementing organizational changes to institutionalize performance audit, and upskill state auditors from the central office, sectoral units and regional offices. The partnership will also build strong ties between COA and GAO, two supreme audit institutions that have pioneered game changing reforms in external audit.	COA	Governance and Institutions Development	1.50	Ongoing
211 Fish Right Program	Fish Right program uses an ecosystem approach to fisheries management to "right-size" fisheries and enhances the sustainable use and resilience of critical coastal and marine resources. The program will work with fisherfolk, provincial and municipal governments and community-based organizations to promote improved management of marine key biodiversity areas (MKBAs). At the end of five years, the program will result in an average of 10 percent increase in fish biomass as a result of improved management of 2.5 million hectares of marine waters, benefitting the more than 2 million people.	DA	Agriculture, Agrarian Reform and Natural Resources	24.95	Ongoing

212 Buy-In to the National Oceanic and Atmospheric Administration (NOAA) Mission Support Participating Agency Partnership Agreement	Building on its earlier regional work on the Coral Triangle Initiative, NOAA partnered with USAID to help the Philippine Government strengthen its scientific, technical, and management capacity, and improve environmental and human resilience. NOAA works with the Philippine Department of Science and Technology and local universities to exchange knowledge on priority concerns. NOAA partners with other stakeholders to support vulnerability assessments, conduct climate, and ocean change modeling for fisheries, and address illegal, unregulated, and unreported fishing. Through these activities, USAID is helping to protect and rehabilitate coral reef ecosystems.	DENR	Agriculture, Agrarian Reform and Natural Resources	2.60	Ongoing
213 Philippines Sustainable Interventions for Biodiversity, Oceans and Landscapes (SIBOL)	SIBOL is a five-year project working to support the Philippine government to achieve its goals of improving natural resource governance in terrestrial and marine landscapes, stimulating public and private sector investments and reducing environmental crimes and unsustainable practices, leading to greater ecosystem stability and inclusive green growth. SIBOL envisions a resilient Philippines in which communities, the private sector, and government collaboratively protect the Philippines' rich natural resources from criminal exploitation, over-use, natural disasters, and climate change. SIBOL's Planetary Health approach uses cutting-edge science, coordinated and inclusive governance strategies, and powerful economic incentives to protect both biodiversity and the communities in and around the target terrestrial and marine landscapes.	DENR	Governance and Institutions Development	22.00	Ongoing
214 Partnership for Biodiversity Conservation III	Now in its third phase, PBC is strengthening environmental law enforcement to improve biodiversity conservation in the country. PBC primarily works with the Department of Environment and Natural Resources, Bureau of Fisheries and Aquatic Resources, Philippine National Police, Department of Justice and the judiciary. PBC assistance has led to the development of manuals for enforcing wildlife, fisheries and forestry laws. The project also helped create a computer-based tool to combat wildlife trafficking and illegal, unreported and unregulated fishing; deputized hundreds of wildlife and environment and natural resources officers; formulated environmental law enforcement action plans from the subnational to national levels; and facilitated the Supreme Court's development of the Rules of Procedure for Environmental Cases, which aided in the timely disposition of environmental crime cases.	DENR	Agriculture, Agrarian Reform and Natural Resources	1.00	Ongoing
215 Protect Wildlife Project	Protect Wildlife helps to reduce direct threats to biodiversity within its geographic scope through an integrated approach that focuses on: facilitating behavior change through effective communications; increasing investments in conservation; building capacity in biodiversity conservation and combating wildlife trafficking; improving decision making through evidence generated by science, technology and innovation; and strengthening environmental law enforcement.	DENR	Agriculture, Agrarian Reform and Natural Resources	24.50	Ongoing
216 ABC+ (Advancing Basic Education in the Philippines)	The ABC+ project helps the Department of Education and education stakeholders to address the interconnected factors that contribute to low education outcomes in poorest performing areas of the Philippines. This project identifies innovative and sustainable ideas on how to address the continuing challenges in literacy, numeracy and socio-emotional learning for children in the Philippines, with a particular focus on systems strengthening. Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
217 Education Governance Effectiveness Program	EdGE helps build the capacity of stakeholders to advocate for local level policy reforms in education. Since its inception, more than 9,000 school administrators and local government officials from 91 cities and municipalities nationwide have been trained on fiscal management and utilization of local education funds. Local education reform champions have also been mobilized through membership in Local School Boards and School Governing Councils. EdGE is also part of the "Marawi Women's Voices for Peace" program, which addresses distinct, urgent needs of displaced women and girls by securing their rights and inclusion and will implement measures to bring displaced girls back to school in host-communities.	DepEd	Social Reform and Community Development	10.97	Ongoing
218 Gabay (Strengthening Inclusive Education for Blind, Deaf and Deafblind Children)	The Advisory Council for the Education of Children and Youth with Disabilities estimated at least 13 percent or 5.49 million Filipino children have special needs, of which 2 million are with disabilities. Though efforts to improve the system and increase the number of DepEd SPED resource centers are being undertaken, less than five percent of children with disabilities are actually in school. To address this, the three-year Gabay project will strengthen Inclusive Education Community Resource Centers, and support the improvement of detection, instruction, and assistance for children with hearing and vision impairments.	DepEd	Social Reform and Community Development	1.81	Ongoing
219 All Children Reading (ACR-Philippines)	This ACR Technical Assistance (TA) to the Philippines Department of Education (DepEd) is seeking to support reading outcomes for primary learners, with a focus on increasing impact, scale, and sustainability. This activity will also build on the capacity of DepEd to support high impact early grade reading programs through evidence-based actionable research. Support includes conduct of the National Early Grade Reading Assessments (EGRA); four separate language studies in Mindanao, and Educational Exchanges.	DepEd	Social Reform and Community Development	5.21	Ongoing
220 Delivering Effective Government for Competitiveness and Inclusive Growth (DELIVER)	DELIVER helps strengthen Philippine government functions and improve government capacity needed to advance the country's international competitiveness and boost overall trade and investment, with particular focus on small and medium enterprises (SMEs). DELIVER assists the Philippine government, and forge partnerships with the private sector, civil society, and other development stakeholders, to institutionalize innovative solutions to improve the effectiveness of the government's critical functions and reform areas such as, but not limited to, public financial management, tax policy and tax administration, domestic resource mobilization, public procurement, infrastructure development and provision, public-private partnership for infrastructure, trade facilitation, market expansion and linkages for micro, small and medium enterprises (MSME), MSME financing and market value chains.	DOF	Governance and Institutions Development	17.70	Ongoing
221 ARMM Health Capacity Building	The activity supports the Bangsamoro Autonomous Region of Muslim Mindanao to achieve a self-reliant health system by catalyzing commitment and strengthening the capacity of the government, civil society and communities to develop, implement and finance solutions to improve health in BARMM. This activity is part of USAID's strategy in conflict-affected regions in Mindanao to build confidence in the local government's ability to delivery vital social services including health. Over the next five years, this activity will work to improve the demand for and supply of quality family planning and maternal and child health services for underserved Filipinos in BARMM.	DOH	Social Reform and Community Development	14.94	Ongoing

(As of December 2020)**

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
222 Collaboration, Learning and Adapting for Improved Health (CLAIMHealth)	To improve the health of underserved Filipinos, USAID/Philippines Office of Health needs to strategically collaborate with partners, scale up good practices and adapt programs based on data-driven recommendations. To do this, CLAIMHealth provides technical assistance, advisory services, capacity-building and related logistical support to the USAID/Philippines Office of Health to carry out its monitoring and evaluation, learning and adaptive management of its Health Portfolio.	DOH	Social Reform and Community Development	6.54	Ongoing
223 Family Planning/Maternal and Neonatal Health Innovations and Capacity Building Platforms (ReachHealth)	The Family Planning Innovations activity will collaborate with the Government of the Philippines to expand and scale-up evidence-based approaches to improve family planning and maternal and neonatal services. The activity outcomes include reductions in unmet need for modern FP and reductions in teenage pregnancy rates. The activity aims to strengthen healthy behaviors among youth, women and men; fortify the quality of patient-centered family planning services through national scale-up of targeted high impact FP interventions; improve supervision and mentoring for public and private sector providers; and support policies and systems that will bolster the enabling environment. The activity will work with key counterparts to provide expert technical assistance to test and introduce state-of-the-art technologies, new approaches, and partnerships. Expected results include: improved practice of healthy behaviors; comprehensive, and quality and patient-centered services available and accessed by underserved populations.	DOH	Social Reform and Community Development	46.00	Ongoing
224 Health Equity and Financial Protection Platform (HealthProtect)	The Health Equity and Financial Protection project is improving financial protection and equitable access to essential health services to maximize tuberculosis, family planning and reproductive health outcomes. The project strengthens and institutionalizes effective approaches and practices that will support the Department of Health and PhilHealth to address operational bottlenecks that impede effective implementation of health financing policies. The project also improves institutional capacity of the two agencies to collect and use information to improve financing of tuberculosis, family planning and reproductive health programs.	DOH	Social Reform and Community Development	11.50	Ongoing
225 Human Resources for Health 2030	In the Philippines, only 10 percent of the country's health workers serve in rural areas, leaving some municipalities without an adequate health workforce. Significant variations in the availability of and access to quality health services, and deficiencies in supervision and mentoring result in inequities in health outcomes. HRH2030/Philippines builds the capacity of the Philippine government to strengthen the development, deployment, training and management of the health workforce to improve equity, access and quality of family planning, maternal and child health, and tuberculosis control services for vulnerable populations.	DOH	Social Reform and Community Development	11.50	Ongoing
226 Institutionalization of Health Leadership and Governance Program	Throughout the Philippines, leadership and governance capabilities of local chief executives and health officers affect people's access to health services, especially for vulnerable populations who rely on government facilities for family planning, maternal and child health and tuberculosis services. IHLGP institutionalizes leadership and governance capacity building in central and regional health management systems. It bolsters the Department of Health's regional offices' leadership capacity to strengthen health systems at the regional and local levels.	DOH	Social Reform and Community Development	1.92	Ongoing

**List of Active ODA Grants-assisted Projects
(As of December 2020)**

Project Title	Description	Implementing Agency	Sector	Grant Amount (in million USD)	Financial Status
227 Medicines, Technologies, and Pharmaceutical Services (MTaPS)	MTaPs Activity provides state-of-the-art capacity-building to the DOH to establish a fully functional supply chain management system, including but not limited to forecasting, procurement, warehousing, inventory management, distribution and use at the point of care. Illustrative interventions include: establishing procedures, training, and monitoring systems for supply chain operations at the national, regional, local, and facility/provider levels; assisting the DOH to establish a single, integrated supply chain management unit responsible for all commodities across vertical programs and to develop a supply chain master plan; and assisting the DOH and other Government of Philippines Agencies with pharmacovigilance and antimicrobial resistance monitoring. Expected results include: an established functional supply chain system at the DOH that provides adequate and timely access to a regular supply of quality commodities at the point of care and supported by an enabling policy, legal and governance framework; a working supply chain management unit at the DOH that is capable of coordinating and integrating supply chain activities that are responsive to the health system's needs; and a strengthened pharmacovigilance and antimicrobial resistance monitoring system.	DOH	Social Reform and Community Development	15.00	Ongoing
228 RenewHealth: Expanding Access to Community-Based Drug Rehabilitation Program	Expanding Access to Community-Based Drug Rehabilitation project works in partnership with Philippine government agencies to improve the quality of community-based rehabilitation and recovery services (CBDR) and ultimately reduce drug dependence in the Philippines. The project offers proven public health approaches to CBDR services that persons who use drugs and their families can access without fear or prejudice. Working with Philippine government and local public and private stakeholders, the project will enable healthy behaviors and demand for CBDR services; enhance the quality of patient centered and compassionate CBDR services and strengthen the policies and systems for sustainable CBDR service delivery.	DOH	Social Reform and Community Development	15.00	Ongoing
229 TB Innovations & Health Systems Strengthening	Despite substantial progress in TB control for the past 15 years, TB remains a key public health problem in the country. Gaps in case detection and access to TB care services persist, ranking the Philippines among the countries with high TB burden. TB Innovations supports the Government of the Philippines to end the TB epidemic by expanding the adoption of state-of-the-art technologies and approaches for case detection, appropriate treatment seeking behavior and treatment adherence interventions for vulnerable and high-risk populations. TB Innovations assists the Department of Health to actively identify, develop, test and scale-up innovative technologies and approaches adapted for the Philippines.	DOH	Social Reform and Community Development	30.00	Ongoing
230 TB Platforms for Sustainable Detection, Care & Treatment	The Philippines remains among countries with the highest burden of TB and multidrug-resistant TB (MDR-TB). Healthcare-seeking behavior of people with symptoms suggestive of TB remains low. Approximately 35 percent of TB-affected households face severe financial difficulties. The national efforts to fight TB need to be coupled with local capacity building, system strengthening and community engagement, including the private sector. TB Platforms aims to strengthen essential supportive and cross-cutting TB interventions at the provincial, local government and community levels to increase TB and drug-resistant TB case detection and treatment success rates.	DOH	Social Reform and Community Development	20.00	Ongoing

231 Science, Technology, Research and Innovation for Development (STRIDE) Program	USAID launched STRIDE to strengthen the Philippines' capacity for innovation-led, inclusive economic growth. The project focuses on disciplines that contribute to high-growth sectors, including electronics, chemical industries, alternative energy, agribusiness and information technology, with cross-cutting themes of manufacturing and new product development. STRIDE is creating a dynamic network of researchers in universities and industry who continuously innovate; entrepreneurs and investors who turn discoveries into products and companies; and a government supportive of initiatives that enable these partnerships to flourish. Since 2013, STRIDE has established working partnerships with over 200 industry partners, 110 Philippine academic institutions, and 25 U.S. universities. It has awarded 68 research grants valued at over \$5 million, 57 scholarships to Filipinos to study in U.S. universities; provided advanced technical training to scientists and researchers; brought in 34 U.S. visiting professors; and established knowledge and technology transfer offices and career centers in 40 universities in the Philippines.	DOST	Industry, Trade, and Tourism	36.36	Ongoing
232 Deepening Access, Transparency and Accountability to Improve Natural Resources Governance and Empower Communities (Project Data)	Project DATA aims to improve natural resource governance, particularly at the local level, by enhancing policies, strengthening institutions, and empowering communities. The project works with representatives from government, industry, and civil society to mainstream transparency mechanisms and multistakeholder dialogues within existing institutions and initiatives. The project also assists local partners in establishing regional knowledge hubs aimed at facilitating capacity-building among stakeholders and ensure the sustainability of the project's outcomes. Project DATA envisions for mining communities improved development outcomes and increased economic opportunities by first improving local governance systems. To improve local resource governance, the Project works in improving local policies, strengthening institutions, and empowering stakeholders engaged in resource governance.	LGU-implemented	Agriculture, Agrarian Reform and Natural Resources	0.80	Ongoing
233 Logistics Services in Mindanao	The Logistics Services in Mindanao provides security risk management and transportation services and other administrative support assistance to support short-term visits by USAID personnel and other U.S. Government (USG) officials and visitors in the Mindanao region of the Philippines. The services include conducting situational analyses; appraising USAID/Philippines staff on security-related concerns in areas in Mindanao with U.S. Government programming; and providing administrative support to USAID/Philippines staff on organizing of meetings, workshops, and high-level events.	LGU-implemented	Governance and Institutions Development	2.17	Ongoing
234 Logistics Support for Mindanao Activities (LOGISTICS)	Logistics Support for Mindanao provides logistical and security coordination, information management services and monitoring assistance for USAID/Philippines and broader U.S. Embassy activities in Mindanao. Since 2014, LOGISTICS has facilitated 306 visits and has produced 528 Mindanao security advisories, including weather-related flash reports and road network accessibility information.	LGU-implemented	Governance and Institutions Development	7.91	Ongoing
235 Marawi Response Project	On May 23, 2017, conflict broke out between the Armed Forces of the Philippines and members of the Maute and Abu Sayyaf Group. The five-month siege had destroyed most of the city's central commercial district and had driven approximately 360,000 people from their homes-- Marawi City's entire population, as well as tens of thousands in surrounding areas. Working with national and local government partners and civil society, MRP improves economic conditions and fosters social bonds of communities directly affected by the Marawi siege. Activities include micro-grants for small business owners, work force readiness training, grants for small community projects and town halls to strengthen government-citizen engagement in the recovery process.	LGU-implemented	Governance and Institutions Development	25.00	Ongoing

236 Peace Corps Small Project Assistance V	When Peace Corps Philippines offered to co-locate its volunteers in USAID project sites, the agencies deployed volunteers to projects focusing on biodiversity conservation and environmental resilience. The volunteers work with community counterparts to identify common concerns, develop strategies to address these concerns and implement small-scale community-level projects. Since the beginning of the program, USAID and Peace Corps have awarded 45 grants, which are strengthening capacities of local environment and fisheries officers and communities to protect and manage biodiversity and natural resources.	LGU- implemented	Agriculture, Agrarian Reform and Natural Resources	0.29	Ongoing
237 Regulatory Reform Support for the Rule of Law in the Philippines (RESPOND)	<p>RESPOND helps to improve regulatory quality that will lead to enhanced competitiveness, and ultimately, contributes to higher levels of investment and trade, inclusive growth and self-reliance.</p> <p>RESPOND will pursue interventions that will enhance market competition to reduce barriers to entry, regulatory burdens and transaction costs for business. It also aims to strengthen regulatory capacity and governance. To strengthen the capacity of public officials to develop and implement quality regulations, RESPOND extends technical assistance that strengthens regulatory oversight as well as transparency and accountability mechanisms. As a cross-cutting objective, RESPOND seeks to expand citizen engagement and the participation of civil society organizations to advocate for fair and open regulation and a better business environment.</p>	LGU- implemented	Industry, Trade, and Tourism	10.00	Ongoing
238 Safe Water Activity	<p>The Philippines Safe Water project provides local government units, water service providers, and watershed councils in target provinces with the information, incentives, and partnerships they require to identify and address barriers to a water-secure future—yielding life-saving gains in access to water supply and sanitation services for unserved and underserved households in the Philippines' most water-stressed communities.</p> <p>By applying a systems approach that strengthens linkages between upstream and downstream stakeholders in the Zamboanga Peninsula and Sarangani and Palawan Provinces, Safe Water works to: increase access to resilient water supply and sanitation services; improve sustainable management of water resources; and strengthen water sector governance.</p>	LGU- implemented	Social Reform and Community Development	18.44	Ongoing
239 Strengthening Local Systems and Partnership for More Effective and Sustainable Counter-Trafficking in Persons in the Philippines (CTIP-P)	<p>The primary objective of the Strengthening Local Systems and Partnership for More Effective and Sustainable Counter-Trafficking in Persons in the Philippines is to organize and consolidate a critical mass of multi-sectoral coalitions in Luzon, Visayas, and Mindanao that will ensure more vigorous, sustained, multi-faceted, and self-reliant CTIP efforts propelled by both public and private resources.</p> <p>Activities and sub-grants will be classified into three (3) main categories of interventions that contribute to the four pillars of CTIP – prevention, prosecution, protection, and partnerships:</p> <ol style="list-style-type: none"> 1. Comprehensive Service Delivery 2. Institution and Coalition Building 3. Research, Advocacy, and Capacity Building 	LGU- implemented	Social Reform and Community Development	3.00	Ongoing
240 PeaceConnect	PeaceConnect engages religious leaders and youth organizations to stimulate social cohesion in select Mindanao sites that are vulnerable to violent conflict, including violent extremism. It fosters social cohesion by training and engaging religious and youth leaders to think and act politically and effectively represent their identity groups in support of peace. The project also creates safe spaces for intra- and inter-group dialogues to mitigate and address violent conflict and violent extremism. Social cohesion activities are implemented in Marawi IDP sites, such as Iligan, Marantao, Kapai and Piagapo.	MINDA	Governance and Institutions Development	4.89	Ongoing

241 Evidence-Driven Collaborating, Learning, and Adapting (CLAimDev)	The Evidence-Driven Collaborating, Learning and Adapting activity will bolster the capacity of USAID/Philippines to effectively lead and institutionalize collaborating, learning, and adapting (CLA) within the Mission, with a broader goal of enhancing USAID's development effectiveness. This activity will integrate CLA principles into the mission's work to strategically collaborate with key internal and external stakeholders, adopt a culture of continuous learning, and practice effective and agile adaptive management to achieve greater development impact.	Multi-Agency	Governance and Institutions Development	12.70	Ongoing
242 Opportunity 2.0	Over three million Filipinos aged 16-24 are currently not enrolled in school, not gainfully employed, or have not finished college or post-secondary education. More than half of these are in the bottom 30% based on their per capita income and are therefore doubly disadvantaged by their lack of education and their poverty. "Opportunity 2.0: Second-chance Opportunities for Out-of-school Youth" will strengthen national and local systems which help youth return to formal schooling, seek employment, or become entrepreneurs by strengthening links between education institutions, markets, local communities, and the various programs that support them. The activity will provide over 180,000 youth with the skills and opportunities to improve their education, employment and livelihood outcomes across the Philippines.	Multi-Agency	Social Reform and Community Development	37.50	Ongoing
243 Strengthening Urban Resilience for Growth with Equity (SURGE)	With wealth concentrated in Metro Manila and a few other primary cities, secondary and tertiary cities must elevate their role in spreading economic development. As the flagship project of the Cities Development Initiative, SURGE helps develop conditions for inclusive and resilient economic growth for a critical mass of cities and surrounding areas outside Metro Manila, Cebu and Davao. SURGE provides technical assistance to help cities and adjacent areas plan effectively, guarantee basic public services particularly access to water and sanitation, enhance the investment climate, promote competitiveness, support sustainable development and reduce disaster risks. The project also provides technical assistance to improve water delivery services in Tagbilaran and General Santos cities. SURGE works to rehabilitate Marawi City and its environs. The project is providing technical assistance to restore safe and sanitary water services, as well as economic livelihood activities, and establishing permanent and temporary market or trading facilities.	Multi-Agency	Industry, Trade, and Tourism	47.79	Ongoing
244 Youthworks PH	This is a youth-oriented, workforce development activity developed through a Global Development Alliance (GDA) with the Philippine Business for Education. Youthworks aims to provide innovative, work-based training opportunities for youth ages 15-29 who are not in education, employment, or training. It will also establish city-based, labor-market information systems, and sponsor broader policy reforms at the national and local levels. The activity also has a strong advocacy component, to highlight the benefits of technical-vocational education. The activity will also pivot to sectors that have seen increased opportunities opened up by the COVID-19 pandemic (such as in information, communications, and technology (ICT) and pharmacy services), while focusing on big-ticket partnerships that have remained committed to supporting the out-of-school youth, such as in the fast food industry. 245 Philippine Rural Development Project	The Rural Development Project for the Philippines aims to increase rural incomes and enhance farm and fishery productivity in targeted areas by supporting smallholders and fishers to increase their marketable surpluses and their access to markets. This will be achieved through: (a) supporting changes in agricultural and fisheries planning, resource programming and implementation practices; and (b) financing priority local investments in rural infrastructure and enterprise development derived from agricultural and fisheries modernization plans, using a value chain approach, and through stakeholder consultations. The project's Global Environment Objective is to strengthen the conservation of the coastal and marine resource base in targeted program areas through biodiversity conservation and fisheries resources management. This will be achieved through: (i) enhancing institutional and planning capacities of local government units and communities; (ii) providing support to marine protected areas in particular areas of global biodiversity significance and select fishery co-management arrangements; and (iii) sharing of knowledge and best practices. 248 Philippines: Methane Recovery from Waste Management Project	The development objective of the Methane Recovery from Waste Management Project for Philippines is to reduce greenhouse gas emissions from participating sites. The project comprises of three components. The first component, piggery wastewater biogas systems will provide carbon finance to piggeries that adopt wastewater systems to collect and combust the methane that will otherwise, under common practice or conventional technology, be emitted into the atmosphere. The second component, landfill gas flaring facilities will provide carbon finance for the operation of facilities to collect and use landfill gas in closed dumps and new sanitary landfills. The third component, purchase of emission reductions allows individual validation by an accredited third-party auditing firm (a designated operational entity under the rules of the Kyoto protocol) and registration by the clean development mechanism (CDM) Executive Board. This arrangement also allows subprojects, individually or as groups, to be added as CDM program activities (CPAs) under the programs of activities (PoA) on a rolling basis, upon submission of adequate documentation.
